

Oladejo Babatunde

Software Engineer

Summary

Experienced software engineer building web applications. Proficient in API development, MySQL databases, and troubleshooting. Strong team player with excellent communication skills.

Professional Experience

Software Engineer | Dufuna Technologies

October 2019 - Present

- Developed and deployed scalable web applications using PHP Laravel, Vue.js, and MySQL, resulting in a 20% increase in user engagement.
- Architected and implemented RESTful APIs using Node.js and Express.js to power mobile and web applications, improving data transfer efficiency by 35%.
- Optimized database performance through advanced SQL query tuning and indexing, reducing query execution time by 40%.
- Collaborated with cross-functional teams to design, develop, and deploy cloud-based solutions on AWS, leveraging CI/CD pipelines to reduce deployment time by 30%.
- Mentored junior developers in front-end technologies (React, Vue.js) and best practices, contributing to team skill development.

Software Engineer | Cotta & Cush Ltd.

September 2018 - October 2019

- Successfully implemented basic front-end features using Vue.js and interacted with RESTful APIs to retrieve and display data.
- Contributed to database design and management using MySQL, learning data normalization and query optimization principles.
- Proficient in version control using Git and collaborated effectively within a team using Jira for task management.
- Demonstrated strong problem-solving skills and a willingness to learn new technologies.
- Gained hands-on experience in developing web applications using HTML, CSS, JavaScript, and PHP Yii under the guidance of senior developers.
